

# Company Profile

S&S is a full service engineering firm that specializes in the design of mechanical, electrical and plumbing systems for commercial buildings and facilities.

# COMPANY PROFILE

*Shabdi & Sons is a full service engineering firm that specializes in the design of mechanical, electrical and plumbing systems for commercial buildings and facilities.*

Our engineers strive to deliver high quality designs and completed projects that exceed the client's expectations, while still staying on budget. We operate nationwide, offering Mechanical, Electrical, Plumbing, Sprinkler, and Fire Protection Engineering services, and much more. Our Manhattan engineering firm takes pride in being accurate, responsive, and easy to work with. We have expertise with a wide range of projects, from private residences to large industrial warehouses.

# ABOUT COMPANY

*S&S is a full service engineering firm that specializes in the design of mechanical, electrical and plumbing systems for commercial buildings and facilities.*

Our engineers strive to deliver high quality designs and completed projects that exceed the client's expectations, while still staying on budget.

We operate nationwide, offering Mechanical, Electrical, Plumbing, Sprinkler, and Fire Protection Engineering services, and much more. Our Manhattan engineering firm takes pride in being accurate, responsive, and easy to work with. We have expertise with a wide range of projects, from private residences to large industrial warehouses..

S&S was founded by Sadik Ali Shabdi in the year 2008. A strong proponent of emerging green engineering technologies, Sadik's firm resonates with his vision, which is prominently displayed in all projects undertaken by S&S .

# ABOUT CEO

## *Sadik Ali Shabdi*

*Sadik has 23 years of experience in the engineering consulting field, with an emphasis on electrical, fire alarm, and telecom building systems.*

His education as an Architectural Engineer allows him to expand his expertise into the mechanical and plumbing disciplines enabling him to work in and design all systems within a building. Sadik possesses the unique ability to visualize a project from start to finish; meaning difficult building system problems become very clear and concise.

Sadik brings a high level of quality design experience to MEP, though his passion lies in building and maintaining long-term client relationships. He lives for great customer service, attention to detail, and internal quality control. His diverse knowledge of mechanical systems, plumbing and fire protection enables him to deliver design excellence to projects with overall client satisfaction.

## Credibility

- We keep our promises and meet our commitments.
- The courage to remain truthful ensures fairness in all our relationships.

## Pride in our Employees

- People are the core of our business and ensure our future success
- We must create a future together by nurturing and developing our staff.

## People and Environment

- We are fully committed to ensure an injury free workplace, where everybody goes home safe.
- Respect for people means to care for them and to protect the environment in which we live and work.

## Customer Orientation

- We commit ourselves to a long-term partnership focused on creating value and for our clients
- Client satisfaction is achieved through the high quality of our people and the services we provide

## Trust

- We build relationships with clients, employees and sub consultants on a foundation of trust and respect.
- We operate an open book approach with our clients and our goal is to develop long term relationships with our clients and become your partner

**Shabdi & Sons** knows our purpose and we understand our responsibilities. As we enable our clients to succeed through successful project delivery, we are always aware of the trust that has been given to us.

For us, being responsible requires a connection between who we are, what we say and do.

Every aspect of our business involves thoughtful care and concern for those around us, and the environment we live in.

Our Social Responsibility efforts are focused on four areas of care & concern:

## People

Fair labour practices and workplace protection for people in our employment

## Community Outreach

Our business will support activities, charitable contributions and proactive support efforts based upon the community we live in.

## Environment

Ensure protection of the environment at our projects, ensuring a sustainable energy efficient design for our clients on each project, and always to lead with the development of technologies that contribute to a sustainable future.

## Ethics

A strong sense of ethics and fair play in all of our business activities and people interface.

# COMPANY HISTORY

*S&S was founded by Sadik Ali Shabdi in the year 2008*

*A strong proponent of emerging green engineering technologies, Sadik's firm resonates with his vision, which is prominently displayed in all projects undertaken by S&S ..*

# MISSION & VISSION

*S&S goal is to develop long term relationships with our clients and become your engineering partner of choice.*

S&S engineering services mission is to be the leading provider of high quality engineering consultancy services to our client's by delivering certainty to "Cost, Function & Schedule" on all our projects.

We acknowledge that in a company like ours it's our Staff, Ethos & Culture is the key to differentiate us from our competitors.

We seek to develop Creative, Innovative and Sustainable Energy Efficient design solutions, in order to allow our clients to gain competitive advantage in the business sectors they operate.

# OUR SERVICES

## Electrical Services

As you decide who to hire for your next electrical project, your first concerns may be where to locate bulky electrical switch gear or how to choose lighting fixtures that meet code requirements and lend appeal to your finished space. We understand and we can help.

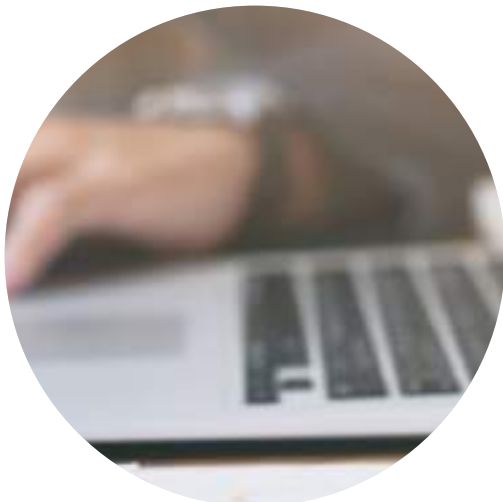

## Mechanical Services

Whether you need to install cooling for a new server room or figure out how to replace your inefficient central mechanical plant, you want to partner with mechanical engineers you trust.

## Plumbing Services

plumbing engineers design systems with our “whole building” in mind to help you avoid surprises. From determining tap size, to coordinating with civil engineers, to deciding the location of incoming utilities, we carefully orchestrate your plumbing solutions to integrate with your overall plan.

# ADDITIONAL SERVICES

## Fire Fighting Services

Our services include specific expertise on firefighting system design which serves the purpose without digging a hole in your pocket.

## CCTV Installation Services

We provides CCTV Services for past 11years in Mumbai.We have experts on CCTV installation in our company who will be able to offer you the best services.
